

Company Info

Company Background

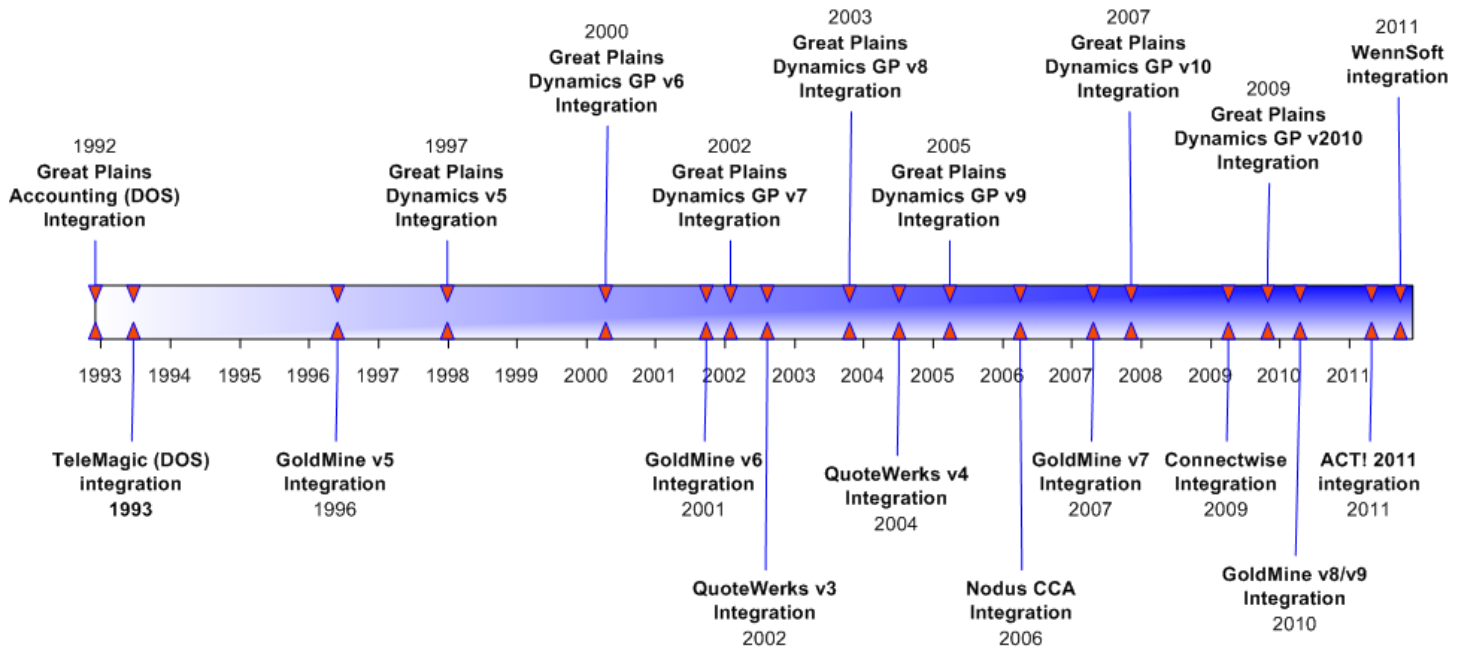

Linked Systems, Inc. is a privately held corporation based in Sunny Seattle, WA. It was founded in 1992 and has over 18 years of experience with Great Plains Dynamics GP, GoldMine, ACT!, QuoteWerks, and Nodus Credit Card Software. Linked Systems was founded by Eric Siko, a software engineer with a unique background in programming, sales and accounting. Our approach to integration is to deliver turnkey systems which can be installed to handle 90% of your business logic that your company already uses and then customize the last 10% so that you get everything that you need from an integration. We have experience with customers in every type of business from the U.S., Canada, UK, and South Africa. Linked Systems has worked with 1500 customers over the past 17 years and we currently have over 8000+ licenses in use on a daily basis.

Product History

Linked Systems 2010 is a very mature product that has 18 years of history behind it. It started out as a as DOS product in 1992, was rewritten for Windows in 1997 and was expanded to work with QuoteWerks in 2002, Nodus Credit Card software in 2006, WennSoft in 2010 and ACT! 2011 in 2011. Along the way we have maintained support for every version of Microsoft Dynamics GP ... v1 – vGP2010.
