Company Background

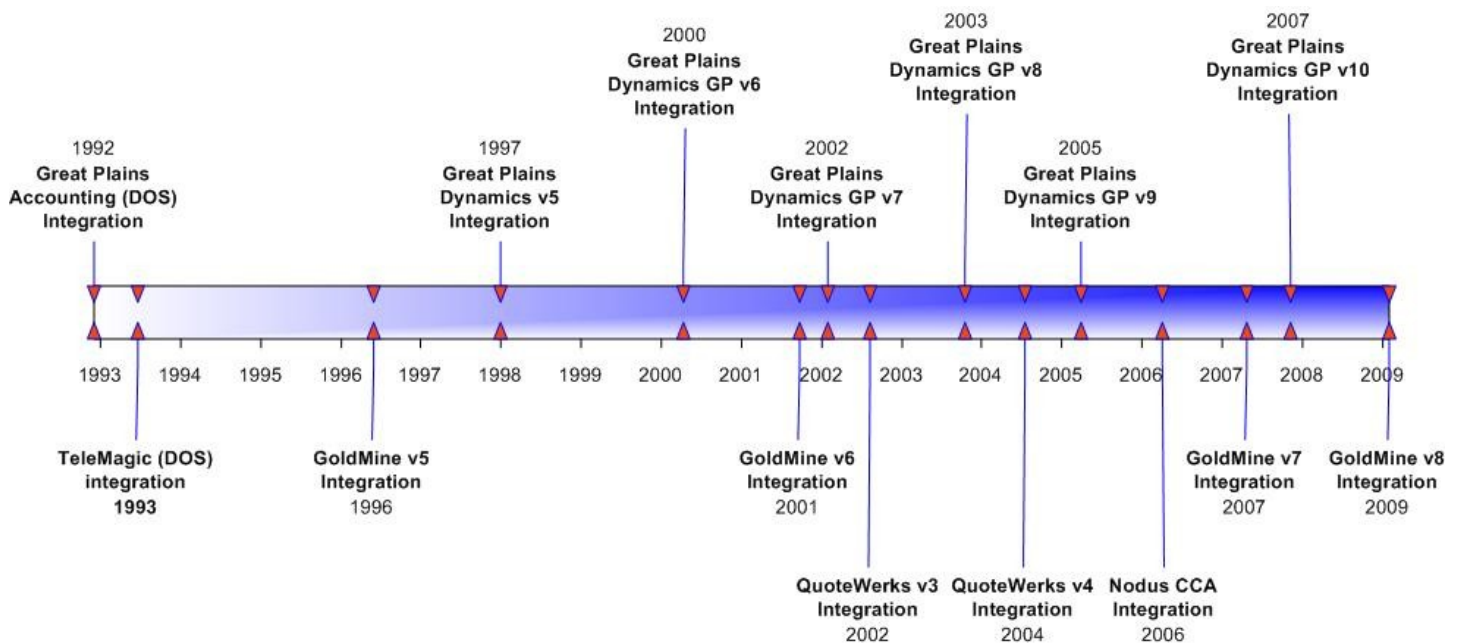

Linked Systems, Inc. is a privately held corporation based in Sunny Seattle, WA. It was founded in 1992 and has over 17 years of experience with Great Plains Dynamics GP, GoldMine, ACT!, QuoteWerks, and Nodus Credit Card Software. Linked Systems was founded by Eric Siko, a software engineer with a unique background in programming, sales and accounting. Our approach to integration is to deliver turnkey systems which can be installed to handle 90% of your business logic that your company already uses and then customize the last 10% so that you get everything that you need from an integration. We have experience with customers in every type of business from the U.S., Canada, UK, and South Africa. Linked Systems has worked with 1500 customers over the past 17 years and we currently have over 8000+ licenses in use on a daily basis.

Product History

Linked Systems 2008 is a very mature product that has 17 years of history behind it. It started out as a as DOS product in 1992, was rewritten for Windows in 1997 and was expanded to work with QuoteWerks in 2002 and Nodus Credit Card software in 2006. we are currently updating the software to work with .NET and expect to release Linked Systems for .NET in 2009.

Current Products

Linked Systems 2008 is a middleware product for small to mid-sized business which integrates industry standard accounting, CRM, quoting and credit card processing systems together. We integrate with the industry products that you already use.
